TOBASCO PEPPER SAUCE LIQUID PEPPER AND ITS HISTORY:

Prepared originally for private use, it soon found its way, without effort, into popular favor and use and is now to be found on well-appointed tables in every civilized country on the globe.

This preparation is simply the pulp of the ripe Pepper so handled as to retain all the flavor, strength, aroma, and color of the ripe fruit and to keep unimpaired in any climate. [It is simply LIQUID PEPPER.] Its flavor is essentially unique and its natural delicacy cannot be attained by the chemical or artificial means employed in cheap imitations. Its strength is so great that it should always be mixed with gravies, sauces and other condiments before using, and one or two dreps will be found sufficient for a plate of soup, meat, oysters, etc. The form in which it is put up (in two-cance bottles) makes it exceedingly convenient to use, and its concentrated form makes it the most economical of all forms of pepper. Price per bottle, 50:: "It pays to buy the best."

W. L. BRANNAN.
